

Features:

- Beautiful shape, perfect lines
- Ergonomic handle skidproof design and special grip feeling material, comfortable hold feeling
- Eddy air outlet, soft and centralized air volume, not damage the device
- CPU PID control the temperature, LCD displays the temp, can be set randomly
- Built-in high precision sensor, accurate and stable temperature
- Adopts Japan Mabuchi Motor, high efficiency, long life
- The characteristic heater, longer life when continuous work
- SMD technology, stable and reliable performance

Model	Power	Temp. range	LED display
WT-703	1800W	60°c ~ 600 °c	yes
WT-705	2000W	60°c ~ 650 °c	no
WT-706	2000W	60°c ~ 650 °c	yes
WT-881	1000W	room temp to 450 °c	no
WT-882	1000W	room temp to 450 °c	no
